

Directions to Moonlick Park Arborglyph Walk

We will meet at the trail head at 1:30pm on Sunday, September 27th. The walk will last about an hour and half. Please bring water as it will be warm. I also strongly suggest a hat and sunscreen. I suggest closed toe shoes as we will be working through grasses and trees. The walk is level and about one half a mile long.

Take Hwy 160 east from Bayfield. Watch for the mile marker # 110, about 6-8 miles east of Bayfield. After Hwy mile marker # 110 and before marker # 111, you will turn left (north) on FS Rd 135 to Beaver Meadows. This is a graded dirt road that a 2-wheel drive vehicle with average or high clearance can easily travel. Take Rd 135 for about 10 miles. This will take about 20/30 minutes on the graded gravel road. At about 10 miles, there is a turn off for FS Rd 620 on the right (east). The turn is marked with a brown FS sign and road number. Turn right at the road and immediately park on the side of the road before the cattle guard. We will meet there as vehicles are not allowed beyond this area.

I will give some introductory remarks at the beginning of the walk. After that, we will walk east along the Rd #620 (which is the Driveway) to see the arborglyphs. If you are late, walk along the Driveway and you should be able to catch up with us.

Please note that this is the last day of archery hunting season although I don't anticipate seeing any hunters.

If you have questions concerning these directions or the walk, I will be in my office tomorrow (Friday) and you can email or call me from 9am to 3pm at 970-385-1267. I will be out of touch on Saturday and Sunday morning.

Thanks for your interest in the walk and I look forward to Sunday!
